iFM 2014
The 11th International Conference on Integrated Formal Methods
9-11 September 2014, Bertinoro, Italy

GENERAL CHAIR
Elena Giachino (U. Bologna)
Gianluigi Zavattaro (U. Bologna)

PROGRAM CHAIR
Elvira Albert (Complutense U.)
Emil Sekerinski (McMaster U.)

WORKSHOP CHAIR
Elena Giachino (U. Bologna)

ORGANIZING COMMITTEE
Roberto Amadini (U. Bologna)
Saverio Giallorenzo (U. Bologna)
Jacopo Mauro (U. Bologna)
Gianluigi Zavattaro (U. Bologna)

PROGRAM COMMITTEE
Erika Abraham (RWTH Aachen)
Clara Benac (U. Madrid)
Ana Cavalcanti (U. York)
Frank de Boer (CWI Amsterdam)
Eerke Boiten (U. Kent)
Michael Butler (U. Southampton)
David Déharbe (UFRN)
John Derrick (U. Sheffield)
Marc Frappier (U. Sherbrooke)
Elena Giachino (U. Bologna)
Susanne Graf (Verimag)
John Hatcliff (Kansas State U.)
Einar Broch Johnsen (U. Oslo)
Rajeev Joshi (NASA JPL)
Laura Kovács (Chalmers)
Diego Latella (CNR, Pisa)
Stefan Leue (U. Konstanz)
Shaoying Liu (Hosei U.)
Dominique Mery (LORIA)
Antoine Mine (ENS)
Luigia Petre (Åbo Akademi)
Guillermo Román Diez (U. Madrid)
Fernando Rosa (Complutense U.)
Augusto Sampaio (U. Pernambuco)
Thomas Santen (European Microsoft Innovation Center)
Steve Schneider (U. Surrey)
Graeme Smith (U. Queensland)
Kenji Taguchi (AIST)
Tayssir Touili (U. Paris Diderot)
Helen Treharne (U. Surrey)
Jüri Vain (Tallinn U. of Technology)
Heike Wehrheim (U. Paderborn)
Peter Wong (Fredhopper B.V.)

OBJECTIVES AND SCOPE
Applying formal methods may involve modeling different aspects of a system which are best expressed using different formalisms. Correspondingly, different analysis techniques may be used to examine different system views, different kinds of properties, or simply in order to cope with the sheer complexity of the system. The iFM conference series seeks to further research into hybrid approaches to formal modeling and analysis; i.e., the combination of (formal and semi-formal) methods for system development, regarding modeling and analysis, and covering all aspects from language design through verification and analysis techniques to tools and their integration into software engineering practice.

CONFERENCE LOCATION
iFM 2014 is organized by the University of Bologna and will take place at the Centro Residenziale Universitario in Bertinoro, a small medieval hilltop town 50km east of Bologna.

INVITED SPEAKERS, JOINTLY WITH FACS 2014
- Rocco De Nicola (IMT Lucca)
- Sophia Drossopoulou (Imperial College)
- Jean-Bernard Stefani (INRIA)
- Helmut Veith (TU Wien)

SUBMISSION GUIDELINES
iFM 2013 solicits high quality papers reporting research results and/or experience reports related to the overall theme of method integration. The conference proceedings will be published in Springer’s Lecture Notes in Computer Science series. All submissions must be original, unpublished, and not submitted for publication elsewhere. Submissions must be in PDF format, using the Springer LNCS style files; we suggest to use the LaTeX2e package as a template for your contribution). Papers should not exceed 15 pages in length, including the bibliography. Each paper will undergo a thorough review process. If necessary, a paper may be supplemented with a clearly marked appendix, which will be consulted at the discretion of the reviewers. Submissions should be made using the iFM 2014 Easychair site:
https://www.easychair.org/account/signin.cgi?conf=ifm2014

All accepted papers must be presented at the conference. Their authors must be prepared to sign a copyright transfer statement. At least one author of each accepted paper must register to the conference by the early date, to be indicated by the organizers, and present the paper. Authors will have the option of demonstrating their tool in a tool session.

IMPORTANT DATES
Abstract submission: April 17, 2014
Paper submission: April 25, 2014
Paper notification: June 6, 2014
Final version: June 27, 2014

WORKSHOPS
iFM & FACS 2014 will be accompanied by a series of workshops. Further information is on the web sites.
